June 19, 2017

Hon. Kathleen Wynne  
PREMIER AND PRESIDENT OF THE COUNCIL  
Government of Ontario  
Rm 281, Legislative Bldg.  
Queen's Park, Toronto ON  
M7A1A1

Dear Premier:

**RE: Non-Urgent Patient Transfers**

At the June 9<sup>th</sup> Annual General Meeting of the Northern Ontario Service Deliverers Association, the topic of Non-Urgent Patient Transfers was again discussed, and the following Resolution was adopted:

**WHEREAS** the Province of Ontario has created a Regionalized Health Care System to maximize services to patients in a central location; and

**WHEREAS** the distance to referral hospitals and diagnostic imaging equipment can be several hours away making the use of Paramedic Services very uneconomical and inefficient for these Non-Urgent Patient Transfer purposes; and

**WHEREAS** Non-Urgent Patient Transfers for many rural Northern Ontario communities has become and continues to be the exclusive responsibility of the local Paramedic Services providers with demand reaching a critical level; and

**WHEREAS** Paramedic Services providers continue to struggle to meet the emergency medical needs of the citizens of their communities' due to aging-in-place populations and increased emergency demands for service; and

**WHEREAS** in many rural Northern Ontario communities there is only one ambulance available and when that ambulance leaves its community to perform a Non-Urgent Patient Transfer, it is often gone for hours at a time leaving the community with no direct emergency coverage; and

**WHEREAS** some of the larger Northern Hospitals may receive "performance" revenue from the province and use these 100% provincial funds to pay for private Medical Transportation Services to supply Non-Urgent Patient Transfers; and

**WHEREAS** smaller Northern rural and remote Hospitals do not receive “performance” revenue for activities like Emergency Department wait times; and

**WHEREAS** Northern Municipalities end up funding Non-Urgent Patient Transfers with 50% municipal tax dollars assuming they have not reached the Provincial 50/50 cap on Paramedic Services funding.

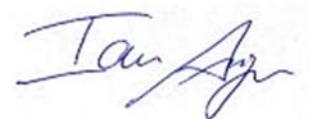

**THEREFORE BE IT RESOLVED THAT** NOSDA requests that the government of Ontario, and more specifically the Ministry of Health and Long Term Care work with NOSDA to create a “Made in the North” solution that does not impact the municipal taxpayer; and

**FURTHER BE IT RESOLVED THAT** NOSDA representatives meet with the MOHLTC and North East and North West Local Health Integration Networks to put in place a ‘Made in the North’ solution to the Non-Urgent Patient Transfers that does not impact the municipal taxpayer; and

**FURTHER BE IT RESOLVED THAT** a copy of this Resolution be circulated to the Premier of Ontario, Minister of Health and Long Term Care, North East LHIN, North West LHIN, AMO, NOMA, FONOM, OAPC and Northern Ontario Paramedic Services providers.

Premier, it’s time to finally resolve this long-outstanding issue, particularly as it affects service delivery and indeed the health of Northerners. We look forward to hearing from, and working with your Government on this important matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "Iain Angus".

Iain Angus, Chair
